MANAGEMENT DISCUSSION AND ANALYSIS REPORT:

The fiscal 2009-10 has been a better year for the Indian economy with a significant slowdown in the growth rate in the second half of fiscal 2009. The general apprehension was that this trend would persist for some time as the full impact of the economic slowdown in the developed world affected the system, with policymakers taking a calculated risk in providing substantial fiscal stimuli to counter the negative fallout of the global meltdown.

However, over the span of the year, the economy posted a remarkable recovery, not only in terms of overall growth figures but more importantly, in terms of certain key fundamentals, which justify optimism for the Indian economy in the medium to long run.

(a) Industry Structure & Developments:

The Non-Banking Financial Companies (NBFC's) as a whole account for 8.9% of the assets of the total financial system. In the wake of the recent global financial crisis and its fallout for Financial Institutions, the Reserve Bank of India undertook measures to preserve financial stability and arrest the moderation in the growth momentum. As a measure aimed at expanding rupee liquidity, the RBI provided a special repo window under its Liquidity Adjustment Facility (LAF) for NBFC's. In addition, an existing Special Purpose Vehicle was used as a platform to provide liquidity support to NBFC's.

(b) Opportunities & Threats:

With GDP growth forecasts of 8% over the next few years, the Indian economy will continue to provide several growth opportunities. The increased thrust on the infrastructure sector including power, road, ports, telecom and other urban infrastructure projects will continue to provide excellent investment opportunities in the future. In addition, the services sector which is growing at rapid pace and contributes substantially to GDP will provide many new opportunities for the financial services industry in India. The NBFC Sector continues to face competitive pressures from the Banking sector and financial institutions, due to their increased penetration in the consumer financing market, with comparatively low cost of funds at their disposal. The spreads in the lending business have also narrowed considerably, bringing risk-adjusted margins to generally unviable levels.

(c) Segment-wise Performance:

The Company's main business is Investment in shares and Investment in Equity / Debt Mutual Funds and all the activities of the Company are related to its main business. As such there are no separate reportable segments.

(d) Outlook:

The Company continues to explore the possibilities of expansion and will make the necessary investments when attractive opportunities arise.

(e) Risks and Concerns:

The Company is exposed to specific risks that are particular to its businesses and the environment within which it operates, including interest rate volatility, economic cycle, market risk and credit risk. The Company manages these risks by maintaining a conservative financial profile and by following prudent business and risk management policies.

(f) Internal Control Systems & their Adequacy:

The Company's operating and business control procedures have been framed in order that they ensure efficient use of resources and comply with the procedures and regulatory requirements. The

Company has a proper and adequate system of internal controls to ensure that all assets are safeguarded and protected against loss from unauthorized use or disposition and the transactions are authorized, recorded and reported correctly. The Audit Committee reviews the quarterly and annual financial statements, adequacy of disclosures treatment of various items involving accounting judgments.

(g) Discussions on Financial Performance with respect to Operational Performance:

The turnover of the company during the year has decreased compared to last year .

(h) Human Resource Development:

The Company believes that the human resources are vital in giving the Company a Competitive edge in the current business environment. The Company's philosophy is to provide congenial work environment, performance oriented work culture, knowledge acquisition/ dissemination, creativity and responsibility. As in the past, the Company has enjoyed cordial relations with the employees at all levels.

(i) Cautionary Statement:

Statements in this report on Management Discussion and Analysis describing the Company's objectives, projections, estimates, expectations or predictions may be "forward-looking statements" within the meaning of applicable securities laws and regulations. Actual results could differ materially from those expressed or implied.
